## Introduction

This is Hikmet. I'm a Jr. Full Stack Developer.

I hold a Bachelor's Degree in Software Engineering.

I am a Junior Full Stack Developer. As a passionate tech enthusiast, I have always been fascinated by the power of technology and its ability to solve complex problems. With a degree in computer science and experience in web development, I have gained valuable skills in various programming languages, including HTML, CSS, JavaScript, and popular frameworks like React.js, and Node.js.

As a Full Stack Developer, I have worked on a range of projects, from developing dynamic websites to building scalable web applications. I have experience in both front-end and back-end development, including UI design, database management, and server-side scripting. My skills in software development extend to agile methodologies, version control, and testing frameworks.

As a Full Stack Developer, I am eager to continue learning and growing my skills. I am confident in my ability to work collaboratively with teams and communicate effectively with stakeholders.

I am passionate about using technology to make a positive impact, and I am excited about the opportunity to contribute to innovative projects that can make a difference.

## Work Experience

### Full Stack Developer

Dec 23 - Present

Hayp Teknoloji ve İnovasyon Anonim Şirketi

- Collaborate with clients to develop and maintain responsive, user-friendly websites using React and Node.js
- Design and develop website layouts and user interfaces using modern design principles and tools, such as Figma
- Implement website functionality and interactivity using various libraries and frameworks, such as React and Node.js
- Ensure website accessibility and search engine optimization through the use of semantic markup and metadata
- Maintain and update websites to ensure their ongoing performance and security, including the use of version control systems such as Git
- Communicate regularly with clients to provide progress updates, gather feedback, and make necessary revisions to the project

As a full stack developer, I have worked with a variety of clients across different industries to develop responsive, user-friendly websites that meet their unique needs. Through my work, I have gained a deep understanding of HTML, CSS, and JavaScript, as well as various libraries and frameworks like React and Node.js, allowing me to create high-quality, scalable websites that deliver a seamless user experience. Additionally, I have honed my communication and project management skills through regular client interactions, enabling me to effectively collaborate and deliver successful projects on time and within budget.

## Intern

Jul 22 - Sep 22

VBT Yazılım

- Worked on the development and implementation of software solutions for clients in the telecommunication sector.
- Collaborated with a team of software engineers to design, develop, test, and maintain software applications
- Gained experience in various programming languages and frameworks, including HTML/CSS/JavaScript and React, and software development tools, such as VS Code and Git.
- During my internship at VBT Yazılım, I gained valuable experience in software engineering and learned how to work effectively in a team-oriented environment. I developed a strong understanding of the software development lifecycle and gained hands-on experience using various programming languages and development tools. Additionally, I improved my problem-solving and collaboration skills by working with various teams on different projects. Overall, this experience provided me with a solid foundation in software engineering and a deeper understanding of the industry, especially in the telecommunication sector.

## Skills

### Front-end Development

Tags: HTML, CSS, JavaScript, React.js, Angular, Tailwind UI Bootstrap

### Back-end Development

Tags: Node.js, PHP, PostgreSQL, MongoDB, Firebase

### UI/UX Design

Tags: Figma, Adobe PS, Adobe AI

### Software Development

Tags: Git, RestAPIs, Data Structures, Algorithms,

### Problem Solving

I can analyze complex problems and come up with creative solutions using critical thinking, logic, and troubleshooting skills.

## Courses & Certificates

[Frontend-Masters - Complete Intro to Web Development, v3](#)

[Frontend-Masters - Complete Intro to React, v8](#)

[Responsive Web Design Certification - https://www.freecodecamp.org/](https://www.freecodecamp.org/)

[Relational Database - freeCodeCamp](#)

[Front End Development Libraries Certification - https://www.freecodecamp.org/](https://www.freecodecamp.org/)

[Git - w3schools](#)

## Languages

Turkish - Native

English - Professional Working

## Education

Software Engineering /B.Sc Degree

Beykent University
